Głos a emocje – wykładniki językowe (prolegomena)

Voice and emotions – linguistic exponents (prolegomena)

Słowa kluczowe: psychologia głosu; prozodia

Key words: psychology of voice; prosody

Summary

Voice is one of the most essential characteristics of a human being, and conveys e.g. emotional states. The paper deals with interrelations between emotions and voice as reflected in scientific studies and in texts. Voice is claimed to play a diagnostic role.
